TECHNICAL SKILLS

Languages and Frameworks

Java
Spring Boot
JavaScript
TypeScript
Node.js
ReactJs
MERN Stack
Angular
React Native
Go
Python
SQL
GraphQL
Docker

Tools and Technologies

Git & Github
Jira
Firebase
JFrog
Groq
Jupyter Notebook
AWS

Associate Software Engineer with hands-on experience in full-stack development using Next.js, Node.js, React Native, Spring Boot, and Angular. Skilled in building scalable applications, integrating APIs (Twilio/WhatsApp), and working in Agile environments. Passionate about AI, cloud technologies, and modern software engineering practices. Seeking opportunities to design and deliver impactful software solutions.

Work Experience

Tecsota LLC

Feb 2025 - Present

Associate Software Engineer

- Develop full-stack web solutions using Next.js, Node.js, and GraphQL, and build cross-platform mobile applications with React Native.
- Configure CI/CD pipelines using GitHub Actions to streamline deployments.
- Collaborate with cross-functional teams in Agile sprints to deliver scalable projects.

CodeGen International (Pvt) Ltd

June 2024 - Dec 2024

Trainee Software Engineer

- Contributed to the Lia P2P project using Spring Boot, Angular, Node.js, and SQL.
- Built backend and frontend features following company coding standards.
- Participated in CI/CD pipelines with Git and JFrog, improving deployment efficiency.

Industrial Pre training at Codegen-SLIIT QBits

Feb 2024 - April 2024

EDUCATION

BSc (Hons) in Information Technology Specialising in Software Engineering

Sri Lanka Institute of Information Technology, Malabe

GCE Advanced Level Physical Science stream Index No - 2103419

Telijjawila Central College

2C & 1S for Maths, Chemistry and Physics

Certificates

Software Design and Architecture Specialization - University of Alberta
Spring Framework- Ecosystem & Core, Spring Data Repositories - LearnQuest
Concurrent Programming in Java - RICE university
Frontend Development using Angular - Board Infinity
Front-End Web Development- University of Moratuwa

Projects & Researches

Interested In

Full-stack web development

Mobile app development

Artificial Intelligence and
Machine Learning

Cloud computing and
DevOps

UI/UX

SkillSprint – Educational Platform (Microservices)

- Built a scalable online learning platform similar to Coursera/Udemy, enabling learners to browse, enroll, and access courses across devices.
- Implemented microservices architecture with Spring Boot, Eureka, Feign Client, ensuring scalability and resilience.
- Integrated OAuth security and course management features for instructors and admins.
- Added SMS/email notifications for real-time updates and enhanced user engagement.

Tools & Technologies

Spring Boot, React, Docker, Kubernetes, REST API

Github repo :

<https://github.com/IsuruX98/SkillSprint-Backend>

<https://github.com/IsuruX98/SkillSprint-Frontend>

TravellPlus(Enterprise level HMS)– SpringBoot , Angular

This project is a Hotel Management System developed using Angular and Spring Boot. It offers a comprehensive set of functionalities to manage hotels, bookings, supplements, discounts, and more. The system also incorporates additional features such as current location tracking, email services, PDF generation, and efficient data handling using pagination.

Tools & Technologies

SpringBoot, Angular, Tailwind CSS, MySQL, VS Code, git, Github ,
Postman

Github repo :

<https://github.com/chamithZ/TravellPlus--Hotel-Management-System.git>

SkillSpan – MERN Stack

SkillSpan is an innovative platform addressing the gap between academic learning and industry demands in Software Engineering. It empowers students with real-world courses, industry-standard coding practices, and internship opportunities. Key features include real-time code execution, AI-powered code generation, and skill-enhancing quizzes, fostering collaboration and innovation between academia and industry.

Tools & Technologies

MERN Stack, Monaco API, OpenAI API Tailwind CSS, VS Code,
Clickup, Agile, git, Github

Github repo :
